Strengthening the GRFA through SIRGAS

Strengthen geodesy at the regional level, collaborating permanently with UN-GGCE and the Geodetic Reference Framework of America (GRFA), promoting resolutions issued here in all the countries that comprise it.

Invite the countries of America and the Caribbean present here, that are not yet part of SIRGAS, to join the SIRGAS community.

Activities developed

Promotion of standards within
SIRGAS countries

Education

Capacity development
through SIRGAS schools.

Work

Real-time services based
on SIRGAS infrastructure.

Standardization

Consolidate the Continental
Geodetic Reference Frame.

Interoperability

Define a unified vertical
reference system
